

Update February 19, 2021

Well here we are more than half way through the month of Feb. 2021. Our first Sunday show went off not to bad but the 4am-to 8:30am rain put a damper on the event.

Our Sister show the Winter National Swap Meet, Car Show, Auction and Valve Cover Races stayed in that same rain pattern Saturday and Sunday of the four day event. However, Thursday and Friday had above average attendance and seemed to be enjoyed by both spectators and vendors.

Remember, the first Sunday of March Swap Meet, March 7<sup>th</sup>, 2021 will be held in our north auxiliary 20 acre parcel. So, don't park in the south lot or you will have a long walk. Questions as usual call 727-848-7171 or check our website:
